Charles Feinberg

I give him have this visible form in the flesh. Say three times and God said, "My grace is sufficient for the." My friend, give me perfect [inaudible]. One of the great things of God you hear, doctor patient. During his [inaudible] a friend came into his room. He said well I'm thoroughly sorry to see you lying there on your back because you do not know why God put that on our back? No he said. He said, "It's in order that we may look upward." Look upward.

Sometimes we're so busy in our work and when we're in our work we're looking this way, [inaudible]. God wants us to look vertically. There is a purpose, instantly. If it's in the purpose of God that you be healed, He would do it. But don't blame God, don't blame Christ. Oh how many have been driven from the faith, faith that I would tell a Christian I could be healed and I'm not healed. They told you, but did God tell you? Let's be careful. The answer to the question, do we keep healing through the Spirit, no. We keep healing in prayer in the will of God. He may give it to you, he may not. Even the healers die too.

Let's stand and receive the benediction and 15 minutes after 3 minutes before 9, 3 minutes after we shall be going to the Green Lounge. That's a color right? The green lounge, like grass, green. Father, Lord we have great sympathy for those who want to be healed. We been sick ourselves, all of us, in some measure or other. We've even been through surgery or some type or another. We do want to be healed, but Lord more important than even the healing is to be in my will. Our Lord Jesus is going to Calvary and says, "Not my will, but thine be done." Maybe [inaudible] There are agonies on earth, we are in an abnormal world and oftentimes you think of Andy Johnson, Flynt Water, what a dear saint of God he was. My, how the soul thinks
had been refreshed. As he was laid on that bed there in the San Diego region and oh what marvelous things to gain, from repent. But that does not mean Father that we should not pray for healing for loved one. It may be thy will to heal them, maybe anything it could be truly in thy will. This conference center could never have lived the year, let alone the years that passed. It had not been in thy will and that in answer to the leading prayer. Every issue [inaudible]. These numerus items, and there all necessities, there not luxuries that our brother had brought before.

Lord, may we take them to heart, in Christ and speak what our particular portion shall. And now may the grace of Our Lord Jesus Christ be with your spirit. Amen.

Lord Bless you, will be up in the green lounge

[3:22-3:42 Organ Postlude]
