Facing Life Without Fear, Part 2
By Billy Ingram

[Applause]

Announcer:
I appreciate that.

The afternoon session for those who were not here yesterday has been moved to Sutherland. Books will be provided as soon as a table is provided where you may look at some of the books written by Stewart Briscoe and Muriel if you've brought a bag of your books. We will display those as well or Sybil, have you written a book yet? No. Well all right. Would you just to just stand for a moment. Muriel Cook and Sybil Endersbe I wanted to wake you up folks. Well we love it. Thank you. [applause] Yes.

Billy Ingram has often said that his messages are like sausage links. They can just be cut off and started and stopped anywhere. We rob him of a few moments during his last time to speak. So this time he turned to me and he said when does this end. And I said when the Spirit of God ceases to talk to you, at no later than 9:45. Billy Ingram is preaching. Let's welcome him. All right.
[Applause]

Ingram:

Can we open our Bibles to the Gospel of John Chapter 8. Gospel According to St. John Chapter 8. Just for a moment and I'm going to read verse 30 through verse 32. As he spake these words many believed on Him Then said Jesus to those Jews which believed on Him, "If you continue in my word then are you my disciples indeed and ye shall know the truth and the truth shall make you free". Can we pray together.

Our father and our God we pray that even now you would breathe upon us by your holy spirit that you would cause us to have eyes to see and ears to hear Lord Lord God I am not worthy nor capable of standing before these your people on my own. So I call upon God the Holy Spirit to think through my mind and speak through these lips of clay. May something be said that may challenge encourage comfort inspire. May we hear the voice of God and we commit this time into your hands with Thanksgiving In Jesus name. Amen.

We are living in very difficult days to say the least. There are so many things going on in our world today. It is virtually impossible to keep up with them and I am very alarmed and very concerned with the state or status of the church. We in America probably by far the most fortunate people on planet earth - having the privilege of being in a place where there are so many freedoms to preach the gospel and hear God's word. Easy access to Bibles and radio
stations and television stations and conferences but what I find most intriguing about what is happening in our society today with all that we have it seems that we appreciate it less and less. There is this growing decay among even Christians wherein they don't really appreciate the word of God. You don't really want the word of God.

In fact it is almost a thundering fulfillment of Paul's prophecy. Remember in 2nd Timothy when he said "The time will come when men will not endure sound doctrine but after their own lust shall they heap to themselves. Teachers having itching ears and they shall turn away their ears from the truth and shall be turned unto fables". I would suggest to you that we are living in that day and that is all the more reason why you and I as students and servants of God must be those who takes God's word serious! Oh my I wish somebody could have said Amen right there. In my church they freely say man it's okay. So could you act like I'm at home. Hello.

Audience:
Amen!

Ingram:
As we suggested to you yesterday there's seven reasons why we should get into the Word of God. I believe we mentioned obviously from the passage that in getting into the Word of God the Word of God will set us free. Christ said you will know the truth and the truth will set you free. However it is a process by the way. It is a life's process. It will take the rest of your life. I believe that's the same process that the Apostle Paul hinted at and Romans 12:1 and 2 when he said I
beseech you therefore brother and by the mercies of God that ye present your bodies a living sacrifice, holy acceptable under God which is your reasonable service and be not conformed to this world but be ye transformed by the removing of your mind that ye may prove. What is that good - I'm sorry - By the renewing of your mind that ye may prove. What is that good and acceptable and perfect will of God.

God does not want us to remove our minds. He wants us to use our minds and have our minds renewed by the Word of God. But there is nothing in the Christian life that's automatic. You don't get saved then push cruise control. Its work. A lot of work. It's a lot of effort and those of you who feel a call to preach or to go into ministry. You have to work harder than your sheep, if you're going to be their shepherd. You've got to be a student of the word. You've got to love the word of God. And that's the thing that really crushes my heart as I interact with pastors around the country and around the world I'm finding that more and more pastors are taking the easy way out. Preaching what I call concordance messages - just finding a verse in the Bible that matter what the context is or what the passage means are just preaching it and making it say what they wanted to say. And there's a real danger in that because a lot of people's lives are being ruined and destroyed.

And then a further problem that I recognize is that people in the church could care less. It's as though people are being abused spiritually and they love it that way. You and I have an awesome responsibility. Obviously this message is one that you are familiar with, being a student at this
Ingram: Facing Life Without Fear, Part 2

university but even being a student you can get lost in the busyness of your daily requirements for your professors and in the midst of all of this you can miss God. Amen in your behalf.

Secondly I believe that we suggested that God's Word when we get into it will cleanse us. Will purify us will sanctify us. I suggest a third reason why we must get into the Word of God and that is because God's word will strengthen us. Can he turn the 1st John chapter two. God's word makes us strong. 1st John 2:11 "I write unto you little children because your sins are forgiven you for His Name's sake". Isn't it wonderful? Isn't it wonderful. I'm sorry I'm the only one excited about this. Isn't that wonderful?

Audience:

Yes!

Ingram:

Our sins are forgiven not for our sake but for his name's sake. Everything that God does he does of himself and for himself. It's all for his glory but we are recipients of the benefit of forgiveness. "I write unto you fathers" - Verse 13 - "because you have known him that is from the beginning. I write unto you young men because you are because you have overcome the wicked one I write unto you little children because ye have known the father. I have written unto you fathers because you have known him that is from the beginning. I have written unto you young men because ye are strong" and what? [audience mumbling] I'm sorry I didn't hear you it's OK to say it and the word of God same word remains in you they continue in the word and the word
continues in them. By the way one of the surest ways to grow spiritually is to expose yourself to that which creates growth.

Peter said and 1st Peter 2:2 as new born babes desire the sensory milk of the word that you might grow by it. This year I am celebrating thanks to the Lord and by his grace my 20th year of preaching and I still get excited about God's word. love the word of God. It's still a thrill to me to preach it and to communicated. I have a simple model that I follow. I study the Word of God as though it were my first time. And I preach as though it were my last. In fact I remember I had been saved and involved with ministry for about two years when I came to buy all the. I'd made the decision to transfer from the University of Oregon not really understanding why I was coming to this school. Not really understanding why I strongly felt that God wanted my life for something and if you're here and you have no idea where you're going. Welcome to the club. That's a good feeling because God knows what he's doing. Even though he has not gotten your approval just yet.

But I remember after making the decision in the summer of '74. There were some strange events that happened that somehow God's word had indirectly prepared me for. It was Friday the 13th, September 1974, 5:10 a.m. My sister ran into my room frantic hysterical. "Billy! Billy! They think that Daddy's dead!"
And I did not want to embrace those words. I did not want to believe what I was hearing it was too early it was it was bad news. It was unbelievable. Why? How? he's in shape. He's young. It's impossible. God would not allow this to happen to me. I'm in his will. I'm going into the ministry. So with fear gripping my heart, I dress in haste and we rush down to his place of employment to find his corpse still lying on the ground. [silence] I really felt Robbed. I felt cheated. I felt all that they wanted to see happen in my life - especially my father - would never ever happen and I can remember going on walks with him five and six years old. He would tell me Son you need to go to college you need to make something out of your life, you need to get an education and one year after he died I graduated from college and he never knew and he never saw it. Didn't see my wedding day. Never met any of my kids.

I walked around for two weeks in a daze and when I finally got myself together I got a phone call that two of my closest friends in high school were burned alive in a car crash and I'm going "God! How much more can I take. This is not fair! My dad's gone my two best friends in the world are gone. I can't make it!" I felt drained I felt weak. I felt that life wasn't an impossibility without these important people in my life.

But an amazing thing began to happen to me. Somehow the scriptures that I had tucked away in my heart really became alive. Wasn't anything magical. I didn't hear any voices no angels danced across the sky but there was a calm assurance that God was in control of my life. That every decision I had made up to that point was the right one. I thought about what the apostle Paul said
to the Philippians church: I have learned in whatever state I am to be content. I can do all things through Christ who gives me strength. That passage I had memorized before - I memorized the whole book of Philippians but it became alive at that moment when I felt weak when I felt discouraged when I felt like giving up. Then I began to understand that God's power is made perfect in our weakness at our lowest point in our most vulnerable point. God's strength is accessible to us.

But it would not have come to me independent to my relationship to the Word of God. I had gotten into the Word of God and the Word of God was still there when I needed it. It was like a reserve. I'm afraid to say that some Christians are coasting on E. That you will soon find yourself spiritually bankrupt if you don't abide and continue and get into the world on your own.

There's a fourth reason why we should get into the Word of God. And that is God's word will make us wise. Turn to Psalm 19. Quite obviously these are just selected ideas as to why there are many many more reasons why we should get into the Word of God. We should get into God's word because it is God's word. Thank you for that one quiet a man the lord be with you I appreciate that. We should get into God's word as an act of obedience a scripture commands us to study show ourselves approved unto God does it not. A workman who needs not to be ashamed rightly dividing the word of truth but I love the Psalms. It is a point of worship for me. The book of Proverbs is a point of wisdom in my reading and I have found that this passage is
really true. It says verse seven the law of the Lord is perfect converting the soul the testimony of
the Lord is sure. It's fixed it's established it's confirmed it's authentic. Making wise the simple.

The expression simple and the Bible is a very interesting word it is from the Hebrew word pithy
and it carries the idea of a door. Remember our Lord said to the young girl who had died
"Epatha" that is being opened and the idea of the word here simple is that a person's mind is like
a revolving door. Nothing sticks. That's why they're simple that's why they're gullible that's why
they're green that's why they're vulnerable they have no wisdom there's no discernment they're
not aware of danger. They're not aware that they may violate the will of God or the word of God.
They're simple minded. And simple people do silly things. Simple people are biblically stupid
and there are some simple sheep who need a shepherd. But God's word says that it will make us
wise. It will give us discernment it will give us the application of spiritual truth. So that we see
very very clearly lurking danger allurements around - the pitfalls and the traps that the enemy is
seeking to lay in each of our paths and I don't know of anyone today who does not need the
wisdom of God. I pray every single day "Lord give me wisdom. Make me wise. Make me
discerning. Cause my thoughts to be clear". God's word will make you wise.

Another reason why we should get into the word of God is because it causes joy in our hearts or
causes our hearts to rejoice. Look at the next passage. The statues of the Lord are what? Right.
Upright doing what rejoicing the heart. How many of you believe that's true? How many of you
really believe that's true?
Audience:
Amen.

Ingram:

I'm not really convinced. You know what's amazing to me? If in fact this passage is true - that God's word rejoices our hearts - then why is there a contradiction in our experience? Why are there so many Christians who go around like they've been baptized in lemon juice? Why are there so many people down in the dumps on the brink of despair despondent discouraged. Why are there so many people who have no joy. And yet they say they love God. They say there in the word of God. Maybe the missing link between your joy and your depression is a lack of obedience to the word of God. It's not just an intellectual knowing we must apply what we know. That is we must keep his commandments. Christ said if you love me do what? Keep my commandments. The prophet Jeremiah echoed these words in Jeremie 15:16. He said thy words were found and I did eat them and thy word was unto me the joy and the rejoicing of my heart.

Having been fortunate to travel to many parts of the world and spending a lot of time on the continent of Africa I have found that African Christians put us to total shame. Total shame. The way they worship the way they pray the way they believe the way they live. They live what they believe because they believe what they live. It put us to shame. The average American when they think of Africa they think of the dark continent. You've thought that before haven't you. I'm sure. Even though you don't say Amen I'm sure you thought that before you've heard that before
somewhere. Africa is filled with people who are backwards. Illiterate. Savages. The ignorant uncivilized people say you know what I've found that's not true. I have found that in what I call "third world" or developing nations that people who claim to love God are serious about. Are serious about God they love God with all their heart mind soul and might. You go and worship at an African church you'd wonder what drugs are these people are they're so happy. What new wine have they been drinking. Why is everyone bubbling over with joy. Why are they static and enthusiastic about the things have God. You know why? Because when you get to a point in your life when you have nothing left but God you need to realize God is enough.

And there's a lot of enormous wealth on the continent of Africa and there's a lot of poverty but people who are poor you'd never realize they are poor by the life they live in Christ they have joy in spite of their circumstances. They are content in spite of not having the luxuries that we have. So for us to say for me to live is Christ sometimes it doesn't fit for me to live as a BMW and to die is gain. For me to live is an entertainment center and a die is game for me to live are new clothes and to die is gain, for me to live is to have a good job. For me to live is to know where I'm going before I get there. Come on somebody say Amen.

Audience:

Amen!

Ingram:
Obedience to the word of God brings joy to our lives by the way. Wasn't that exactly the words of John when he said these things right iron to you that what your joy may be full. There is a difference between happiness and joy. The world suggests that happiness is having this and that and the other, nice car nice boat nice home nice clothes, knowing the right people living in the right neighborhood and so on. When you get all these things the world says you should be happy. I'm waiting to see a person who has all those things who's happy. I've not met one single person who has all this world's goods. Apart from Jesus Christ who has any happiness at all. It's as though they're still reaching for it. There is no satisfaction with what they have. And that is an indication that God knew exactly what he was doing when he made us. He made us so that we could only be filled and fulfilled by himself. Nothing else will do as a substitute.

That's why so many young people today have lost sight of where they're going because no one is steering them towards God so they are substituting for God to fill the void with drugs with alcohol with sex with voodoo and black magic and witchcraft and the occult and any weird and bizarre thing that can come to mind. Because they're empty on the inside. Friend of mine, God has so designed that only he can fill you. Only he can be numero uno, number one, in your life by the way if God is not number one in your life then he shouldn't be in your life because God will not take second place or honorable mention. Thank you for those courtesy Amens. I appreciate it. God wants to be first and foremost. At the center and the core of our lives.
So that in the wonderful words of the Apostle Paul whatever is true honest just pure lovely of
good report virtuous praiseworthy he said think on these things. Why? Because when you think
on these things are always thinking about God. Amen. Now there's another reason why we
should get into God's word and that is because God's word will make us have good success. Turn
to Psalm number one.

Psalm one he said Blessed is the man of the walk if not in the council of the ungodly. Did you
hear that? He says we walk not in the Council of the ungodly. Being involved with counselling
quite frequently I am amazed at some of the dumb things we as Christians do. There's a young
man who goes to my church. He just turned 17. He called me ahead and spoke to him in
probably six months to a year. He always calls after midnight. [laughter] "My Pastor Billy I hope
I didn't wake you up?" No I was waiting for your call [laughter]. Calls after midnight and he says
I need a favor. What do you need? I need help with my rent. Oh. When did you start living on
your own? "Well, uh, well I'm living with my girlfriend". He finally blurted out. So I said Meet
me at the Bible study. We'll talk about it. My wife and I conferred together we'd already decided
that if we gave him the money we would be endorsing his sin and we couldn't. But I wanted to
say it to his face. I wanted to be in his presence.

He said well we getting married at the end of the month. Can you help us out. Wait a minute.
Who's giving you that directive? Here's a young man who thinks that his marriage will work
because they're living together - statistics show that people who live together end up getting a divorce. What's worse is that people who get a divorce as Christians the second time around the divorce rate is higher. That's why the Bible says there is safety in council.

However if one is having problems in their lives they should not go to a person who doesn't know God to get guidance about God. And I've noticed that we as human beings and we as Christians have a tendency of doing that. If my daughter has blown it she won't come to my wife or myself for guidance. She'll go to her brother that she knows will tell her what she wants to hear because they know if they come to us they'll be in trouble. He'll let them off the hook. Christians have a tendency sometimes of doing the same thing. We know that if we go to a person who's mature in the word of God they're gonna tell us the truth. And so we try to find people who tell us exactly what we want to hear. That's dangerous!

Walking in the Council of the ungodly will negate your experience of joy. In fact it will wreck your life. Then he says nor stand in the way of sinners. If one's life is being counseled by the ungodly. The inevitable result is that your life will be a contradiction to what you claim to believe. You'll be a stumbling block. You know one of the biggest complaints that non Christians have about us as Christians. They think we're hypocrites. They think that we're a bunch of people who mouth off a lot of high sounding spiritual readings who don't practice anything that we preach.
Hence when that happens we block the very people who are seeking to get into the presence of God. Nor sit in the seat of the scornful but in contrast his delight is in the law of the Lord or in the word of God. Can I ask you a personal question? Hello? [laughter] Is it okay if I ask you a personal question?

Audience:
Yes!

Ingram:
All right good. I just want to check to be sure. What do you really take delight in? Fellas, sports? World Series? Monday night football? the NBA? Or is it the Bible? Young ladies is it the soaps? [laughter] Must have struck a nerve over here somewhere. Is it the ladies garbage on the idiot box. By the way you've heard the adage - garbage in garbage out. We don't get the word of God in us. It'll never come out of us.

When I look back there was a man god brought into my life. His name is Ernie Fisks. He's an insurance salesman in the state of Oregon; Eugene, Oregon. I met him during the time I was going to school there and this man challenged me. He said Billy Ingram you want to be a preacher get God's word in your heart. Get it in your life so that you can have it on your fingertips so that when you needed the Spirit of God can bring it to recall and you can wield it as a sword. You know what I did? I didn't know any better than to not take him serious that took
him serious. I believe that if I hear the word of God in my heart that God would somehow bring it back. And the amazing thing. I have watched God do it for 20 years now without fail. In fact I have noticed through the meditation on the word of God my memory has improved! It is easier to retain as a result of having God's word than even before when I had blown my minds on drugs.

I believe in miracles! You're looking at one.

In a very literal way. When I was in the world I destroyed my mind on drugs and that's why I'm so strong against drugs with my children with my church and anyone I come in contact with because see what the devil doesn't tell you is that after the first hit on that joint. You're hooked. When that first hit of crack you're hooked. And I look back at how my life was just going to hell. Fast. Someone came along my way and said Man you need to smoke this. The peer pressure forced me to surrender. Now I remember the very first time I took the hit of drugs. It was wonderful. I couldn't believe it! I laughed so hard I start crying. My side started aching I was laughing so - I was on the floor I couldn't stop laughing. And I was convinced man this is it! It doesn't get any better than this. The next day I got a headache while getting high. But I figured well the next day I'll recapture what happened the first day and on and on the deception went and I never got back to the very introduction to drugs but now I found myself in bondage. Found myself destroying and decaying away.
There were many days I would stand and try to figure out who I was and who I was talking to and where I was. What was the last thing I said. My mind would kind of drift in and out of reality but I saw after God got hold of my life that through the diligent effort of getting into the word of God it improved in my mind and improved my memory. Let me submit a challenge to you Biola. Find yourself a buddy. Just one person one person. And hold each other accountable to hide the word in your heart and to meditate on it on a regular basis. I guarantee your life won't be the same.

I was so elated when I was driving my children to the school the other day that my middle child Marion who's 9 had the first four verses of the Gospel of John memorized and I give him a quarter per verse kind of adds a little incentive little inducement. She earned one dollar within a matter of five minutes she went through it without a glitch. She has no idea the impact that her hiding God's word in her heart is gonna have for the rest of her life. She'll never be able to run from it or get rid of it. And the problem with us today. We're not programmed with the word of God. We're shallow people. So in times of stress and difficulty we fall apart or we crack. Refer to what he says.

His delight is in the law the Lord and in His law doth he meditate day and night. He should be like a tree planted by the rivers of water that bring forth his fruit and his season. His leaf also shall not wither and what? What so ever he doeth with shall prosper. Now there are many people
who are searching for God's will in their career God's will in their lives. I want to submit to you that God is more interested in your character than your career. God is more interested in what you are and what you are becoming. That in what you do. And if we could get the being in perspective the doing would follow suit. A man he said whatever he does after he has become like a tree planted. Then it would prosper. Look at Joshua chapter 1.

Joshua the first chapter. Moses had died. Joshua was now taking over the helm of the children of Israel. These are the instructive words that God gives to him. Be strong - verse 6 - and of a good courage for unto this people shall thou divide for an inheritance the land which I swear under their fathers to give them only be thou strong and very courageous. That thou may observeth to do according to all the law which Moses my servant commanded thee. Turn and not from it to the right hand or to the left that thou mayest prosper wither soever thou goest. Look at verse eight. It's a classic. "This book of the law shall not depart out of my mouth". I find that intriguing in light of this new faith and the word of faith movement where all you gotta do is just name it and claim it grab it and blab it [laughter].

Pop pop fizz fizz you're an instant spiritual giant with no effort at all. He didn't say you confess it, he said you keep it. Hello? He said that this word shall not depart out of my mouth you will chew on it and chew on it and mutter and mumble and meditate and ponder - make it yours He's saying! The problem is for many of us the word of God isn't ours it is the one who told it to us. We have not appropriated it to our lives. We haven't taken the time to see to it that it gets down
into the deep recesses of our being and I think I can best illustrate meditation in the eating pattern of our children.

Our oldest son is an amazing person. He just turned 13 years old he's close to six feet tall, wears a size 13 shoe. He's dunked once already. You know the expression like father like son, that is haunting me to this day. Coz he's eating and sleeping basketball. Basketball. Basketball. Books. Basketball. Basketball. Books. Basketball. Basketball. Basketball. Books [laughter]. But he has an amazing appetite. I sit there and I watch this kid eat three and four hamburgers at a pop. Two large bags of French fries and he'll guzzle them down just like that.

Our little girl. However she takes little itsy bitsy bites. And that one little bite she'll chew on for 45 minutes [laughter]. I've gone to the bank I've come back and the burger is still the same size she has the same little wad of hamburger meat in her mouth. Forty five minutes later. If you permit, that's meditation. You're not gonna get it by some quick crash course to success. You're not gonna get it like my son just guzzling it down and then choking in the process. It could be like my daughter where you have it in your mouth forty five minutes. You just keep doing it and you just keep chewing it and you can exclaim because you know you've tasted for yourself that the Lord is good. That's what God wants from us my friends. He wants us to be first hand experiencers of his word. That only comes by sticking with it by staying with it by staying in it.
And here it is again how often? I'm sorry I didn't hear you how often?

Audience:
Day and night.

Ingram:
Day AND night. Then thou shalt make thy way prosperous and then thou shalt have good success. I love that expression because it centers one's life right in the hand of God. And I have found in pastoring a church that there is enormous responsibility and pressure that is constantly on my shoulders. And I remember in the early days of our church when we were seeking to acquire property and build our facility that we didn't have enough finances to invest. But the numbers kept swelling. This lady came to my office. And she said to me I have 6 million dollars I want to give you to help you build your building. That's a nice offer [laughter].

Somehow God's word kind of alerted me to really listen carefully to this lady. First thing she wanted to do was to see the bylaws of the corporation. OK. Then she began to outline her plan and her program for my church. She said I've got six million dollars I want to give you. My question was if she wanted to give it to the church why didn't she just give it without meeting with me? She's put me at a serious disadvantage because now if she gives this money to me she's got power over me if she doesn't like what I preach or how long I preach or like my jokes or
whatever. So as we talk she said what I like to do is to arrange to take a trip to Switzerland and you can pick the money up. Yeah. Right!

What we found out subsequent after speaking with her that she was going around burning pastors. Because the other catch was you had to put up twenty five thousand dollars "good faith money" to get the six million. Problem is after the twenty five there was no Switzerland and there was no Miss Who's its what it knows all and tells nothing. She would suddenly disappear. I told the congregation I said there's this lady who wants to give the church six million dollars and I refused because I don't want to be intimidated by anyone I want my mind to be pure so that when I face the congregation I'm not concerned about who's giving water who's not giving. I want to hear from God and say exactly what God is giving me to say without hesitation without compromise and that's virtually impossible of this person trying to control the church.

I said I'd rather for us to struggle and trust God and wait on God and believe God and have God's timing so that we do it together as a body and you know the amazing thing? God did it without that lady. In May of 1984 we purchased our present facility now for eight hundred thousand dollars. The week after we purchase the facility Mayor Bradley announced that right across the street from us he was building a 300 million dollar mall and the property value went up overnight, four million dollars. And the Lord said to me now See? I know what I'm doing. Probably had we allowed that lady to build the church our church would have been destroyed but God knows exactly what he was doing and he gives us direction and guidance through His Word.
Now now listen carefully related to you as students there's another important reason why we must get into the word of God we've got to talk about that tomorrow. My time is gone let's pray.

Father give us a hunger for the word. Forgive us for our apathy, our indifference our neglect. Forgive us for treating the Bible like a homework assignment rather than precious truth from God. Lord help us to see it the world is more to be desired than gold, yea, than much fine gold and it's sweeter also than honey and the honeycomb. I pray lord that you would give us a deeper love and appreciation for the truth the Word of God help us to grow in the grace and in the knowledge of our Lord and Savior Jesus Christ. Thank you for your concern for your comfort. Thank you for your hope that's instilled in us the right relationship to Christ. Bless these students blessed this faculty bless this university and grad school. And may our lives continue to exhibit the face and the presence of the Living God whom we love so that when men see us they may take note we have been with Jesus. And we thank you and Christ name, Amen.

By the way there are five questions. That need to be asked before you think about giving up. And I'm gonna talk about that tonight.

[Recording ends]
